

Impact of Funding Shortfall on Women & Girls in Azraq Camp

OVERVIEW

As of 1 June 2026, in Azraq Camp, UNFPA supports **three Women & Girls Safe Spaces (WGSSs)** located in Villages 3, 5, and 6, and **two Sexual and Reproductive Health (SRH) Clinics** in Villages 3 and 5. **A forced full shutdown is expected in December 2026 unless funding is secured**, disrupting lifesaving GBV and SRH services for women and girls.

UNFPA Funding Trends in Azraq Camp through Localization (2023-2026)

CONTEXT & POTENTIAL NEEDS[1]

33,469 people currently

6,739 families registered

50.8% of the population are female

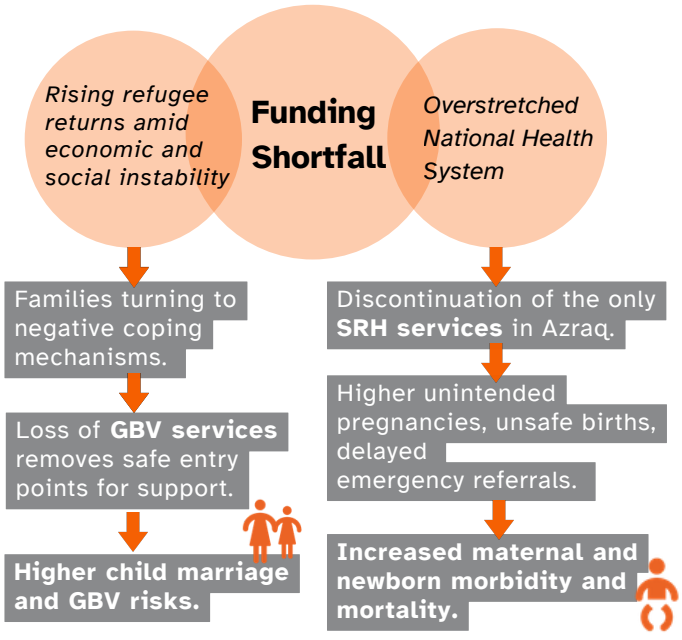

23.7% of the population are female in reproductive age (15-49)

38.5% households is led by a woman

WITHOUT UNFPA SERVICES

15.9K	**women & girls** will have **reduced access** to essential services.
12.4K	**women & girls** who rely on WGSSs for GBV service and empowerment will be directly affected.
8.5K	**women & girls** who rely on SRH clinics for **lifesaving SRH services** will be directly affected.
50%	of **targeted women & girls** may face increased **morbidity risk** due to reduced access to essential services.
1.3%	increase in **mortality risk** is expected among high-risk cases due to reduced access to lifesaving care.

LONG-TERM IMPLICATIONS
